Sept. 28, 2006

Contact: Rodney Mallett

Telephone: 225.219.3964

MEDIA ADVISORY

State to begin using technologically advanced Mobile Air Monitoring Lab

- What:** The Department of Environmental Quality will introduce its new Mobile Air Monitoring Laboratory to the Baton Rouge area. The MAML is a 2006 Winnebago that has been equipped with state-of-the art monitoring equipment.
- When:** Monday Oct. 2.
9:30-10:30 a.m.
- Where:** Zachary High School
(in the football stadium parking lot)
4100 Bronco Lane
Zachary
- Why:** The MAML will help the department take air samples throughout the state and will be used to ensure the public that Louisiana meets all state and federal air quality standards.
